

# HIPAA Compliance

## Your Trusted HIPAA Compliance Partner

As a covered entity you must comply with the risk analysis requirement mandated by the HIPAA Security Rule, MACRA, Meaningful Use and other regulations. Drummond helps our clients achieve HIPAA compliance as an independent third-party assessor and a recognized leader in Healthcare and HIPAA compliance – with over 200 HIPAA assessments completed to date. Our industry experienced healthcare compliance team will give you an objective view of potential risks and vulnerabilities to patient information and we will ensure that your security, privacy, compliance goals align with business goals and ultimately mitigate risk. Our clients have been able to save as much as 50% of the labor costs using our proven methodology and automation processes and we are ready to help you with these service offerings.

### Drummond Healthcare Risk Assessment

#### Comprehensive Healthcare Assessment

Drummond's highly skilled experts provide a formal, detailed, yet flexible method of evaluating your business and operational risks and controls to understand and appropriately mitigate risks to the organization. This includes testing services such as vulnerability scanning, penetration testing, database assessments, social engineering testing (physical, voice, email phishing), network security architecture assessments, and wireless assessments to ensure a complete view of all risks.

#### Small Practice Assessment

Drummond provides a baseline assessment leveraging the requirements set forth in the HIPAA Security Rule in conducting information security risk assessments based on NIST 800-30 and the report will identify the highest-risk areas to your organization.

### Drummond HIPAA Compliance Services

#### HIPAA Gap Analysis

Drummond assesses your organization's current security control implementations against the HIPAA Security Rule to identify potential gaps in compliance with respect to the confidentiality, integrity, and availability of protected health information.

#### HIPAA Policy and Procedure Review

Drummond assists your organization by providing a complete review of HIPAA policies and procedures to ensure you are compliant with the Security Rule and identify any potential gaps in compliance. Additionally, Drummond offers a Policy and Procedure template that can be applied to your operating environment to help ensure HIPAA compliance.

#### HIPAA Compliance Consulting

Drummond provides subject matter expertise, guidance, and recommendations for meeting HIPAA compliance. Drummond will work with you to understand the environment and make recommendations on policy and procedure requirements, make recommendations on how to implement technology in a compliant manner, guide on personnel and process compliance matters, and more.

### Beyond HIPAA: Cybersecurity services to protect what matters most

- Penetration Testing Service
- Physical Security Advisory and Testing Service
- Social Engineering Training and Testing Service
- Application Security Testing
- Red Team and Purple Team Advisory and Testing Service

If you are interested in improving security beyond HIPAA-specific requirements, we offer cybersecurity services. From penetration testing to physical security services as well as application security testing, we help protect you in today's highly volatile business environment and beyond. Using the latest developments in Red Teaming and Purple Teaming, we will identify vulnerabilities in networks and applications previously undetected by other 3rd party testing firms or internal IT security staff. Our team of experts will train your organization to create your own adversarial simulation security practice and cybersecurity continuous improvement programs. We can also help you with Social Engineering-based Penetration Testing for additional protection against social engineering exploits -- one of the most common methods of a hacker attack.

### Your partner for Healthcare, HIPAA Compliance and Cybersecurity

We are ready to help you incorporate continuous security and compliance practices into your organization and culture. Experience our team of highly skilled experts ready to collaborate with you and your team. Increase trust, gain expertise, and experience our unique approach and attention to detail as we partner with you to achieve compliance, application conformance, and protect your business with advanced cybersecurity practices.
