Your Partner in Compliance

We are Drummond.
We offer a comprehensive suite of services to help you to:

- Achieve compliance with regulatory information security mandates
- Ensure critical business applications meet regulatory and industry standards

Experience our team of highly skilled experts ready to collaborate with you and your team. With our proven expertise and methodologies, we ensure personal engagement and dedication to your long-term success and are ready to help you with these service offerings.

Compliance and Assurance Services

Drummond is an experienced compliance and assurance service provider, having completed more than 700 engagements with clients across multiple industries. Because most organizations are finding the need to comply with multiple compliance standards, we can also help you streamline that burden with an "assess once, report many" methodology. Additionally, we can assist you to maintain compliance throughout the year through our continuous compliance services.

Proven and Fast Certification and Compliance

- Completed over 275 HITRUST certifications
- Completed over 200 HIPAA Risk Assessments leveraging NIST 800-53
- AICPA SOC Reporting with a Drummond Strategic Partner CPA firm
- Completed over 280 PCI assessments as one of the longest standing Qualified Security Assessor (QSA)

Application Conformance and Interoperability Services

Drummond is the pioneer and market leader in application conformance and interoperability testing services with more than 750 software applications tested for over 400 software solution providers. We help ensure applications comply with regulatory and industry standards so they can deliver the expected B2B and cross-application business process automation benefits. In healthcare and pharmaceuticals, our testing services help enable critical industry processes such as electronic orders and prescriptions for controlled substances, electronic health records management and clinical care, and pharmaceutical supply chain track and trace. In clinical care, we are an authorized certification body (ACB) for the U.S. Government's ONC Health IT application certification program and the leading provider of such services to the EHR software market.
